Application

Glass
It is used to manufacture a variety of glass products such as container glass for packaging, float glass for buildings and automobiles, fiber glass for insulation, etc.

Soaps and Detergents
It is used as a filler, pH adjuster, agglomerate aid, and water softener to manufacture soaps and detergents.

Electrolysis
It is used as an electrolyte for electrolysis because it is a good conductor of electricity.

Other applications
It is also used to prepare sodium silicate, in photograph development process as a pH regulator, swimming pools to neutralize the excess chlorine, brick industry as a wetting agent, processing non-ferrous metals, etc.

Packaging

• 840 @ 25 kg PP/PE bags, 21 MT/20' FCL
